

LOENEN REPAIRS B.V.
"We take care, of your repair"

A long family history

LOENEN REPAIRS B.V.
"We take care, of your repair"

Since its foundation in 1983, Loenen Repairs has transformed from a small service-directed company to a maker independent complete ship repair service company for steel constructions, damage repair, piping, certified welding, overhaul of machinery and deck equipment, gearbox service, on-site machining etc. besides these technical services we also offer technical assistance and supply, lay-bay service and agent assistance.

With the main office in the Netherlands and representatives around the globe, we value quality and service to the highest level achievable.

Loenen Repairs provides service when a vessel is in dock or afloat. With service engineers active all over the world we do not have restrictions regarding service locations – we can help you anywhere our service is required.

To meet our service standards we offer 24/7 technical support by our own well-experienced engineers, capable of performing repairs on-site, afloat or with preparations done in our workshop.

To assist our customers even more complete, our strategic partners can perform a wide variety of repairs, 2 and 4 stroke engine service and troubleshooting, electrical installations incl. PLC automation, rotating equipment which can be done in our in-house repair workshops, in-situ or in dry-dock.

More information can be found on our website, and you can always contact us if you have any questions, enquiries or remarks.
